

A wide-angle photograph of the Dubai skyline, featuring the Burj Khalifa as the central focus. The skyscraper is surrounded by other high-rise buildings, and the foreground shows a body of water with some greenery and small boats. The sky is clear and blue.

Master Plan

1: 4000

0 400 1200 3200 M

Architectures

- 1 Television Tower
- 2 Town Hall
- 3 Musuem
- 4 Theater
- 5 Advanced Industrial Park
- 6 Peir x APM station
- 7 Shopping Mall
- 8 Dubai Creek Tower
- 9 Harbour Tower
- 10 Grand Mosque

Public Spaces

- 0 Float Park
- 0 Amusement Park
- 0 Civic Frame Plaza
- 0 Central Island Park
- 0 Ripple Garden
- 0 Wharf Curve Park
- 0 Riversoft Plaza
- 0 Pearl Riverbend Park
- 0 Creek Linear Park
- 0 Polygon Park

Development Index

515 ha Area
12,824,243 sqm GFA
45 ha Open Space
27% Greenery Coverage
8,067,800 sqm GFA (60%)
on Residential zone
(Low-rise/High-rise Residential & Apartment)
3,855,559 sqm GFA (31%)
on Commercial zone
(Retail, Office & Hotel)
1,437,115 sqm GFA (11%)
on Public Facilities zone
(Government office, Schools, Hospital, Police station, Fire station, Post office, Culture buildings, Regional buildings & Community centre etc.)

Strategy Framework

Urban Ecology Sustaining Hydro-Ecological Resilience with Water	01	Climate-Adaptive Resilient Water-Bond Design	Ecological Buffer & Resilient Watershed Development: Restoring Multi-Habitat Spaces Hydrological Network & Topography Optimization: Building a Resilient Ecological Infrastructure
	02	Water-Driven Urban Blue-Green Spatial Systems	Ecological Productivity: Ecological Green Buildings
	03	Transport Corridor Integration	Multi-Modal Transport Network: Seamless Connection Multi-modal Mobility Hub: Convenient Accessibility
Urban Living Shaping Convenient Habitats by Water	04	Waterfront Convergence of Multifunction	Multifunctional Zoning Development Water-Responsive Architecture Planning
	05	Public Spaces of Culture Integration	Water-Integrated Open Spaces Water-Embedded Landmark Buildings
	06	Smart Urban Living Governance	Water-Scattered Service Facilities Water Resource & Renewable Energy Management
Urban Development Navigating Hydro-Centric Prosperity for Water	07	Sustainable and Resilient Urban Prosperity	Digital Twin City & Smart Decision-Making Systems Blue Economy with Marine Industry as the Growth Engine
			Robust Multi-Industry Development Practice-compliant Economic Growth Model
